DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims contain numerous confusing form errors. For example, claim 11, line 1 sets forth “the guide rail” when no guide rail has been previously claimed. The claim also refers to “the connecting line” and “the plumb line” without antecedent basis. These also appear to be reference points, rather than physical members. Please amend the claims to clarify antecedent basis, duplicate recitation and clarity problems. Furthermore, it is unclear whether claim 14 is meant to be independent or not. The claim includes a “for use” statement with the apparent dependency, which implies that it does not necessarily require the previously claimed elements. However, by including a reference back to claim 1, it is unclear whether the applicant wants to include the previously claimed elements. Please clarify.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
